2002 YEAR IN REVIEW

The year 2002 has brought us a rich variety of work and recognition. Our firm designed three of the five homes selected by *Orlando Magazine* for its “**The Best Money Can Buy**” issue in August (above).

Construction is recently complete for our **French Chateausque** home at Isleworth (left)... and our most unusual, a **South African Dutch Colonial** in the Caribbean (right).

Construction continues on a **European Villa** on Lake Down (left).

Our most distant home design to date is a **Mediterranean Villa** to be constructed in the Malaysian city of Subang Jaya (right).

Closer to home, construction is about to begin on a **Mediterranean Villa** in Lake Nona (left) and an

Italian Renaissance home in Isleworth (right).

Our largest home of the year is a **Mission Mediterranean** which contains a full, NBA regulation court, to be constructed in Isleworth.
