ARCHITECTS, P.A.

## 2003 YEAR IN REVIEW

The year 2003 brought several coastal projects as a result of our exciting website, with the result that our work is now an even mix of Central Florida and Coastal. Our **French Country home** in Windermere (right) won the coveted National "Best in American Living" award from the NAHB. This is our fourth BALA in seven years, more in that period than any other Florida residential architectural firm of any size.

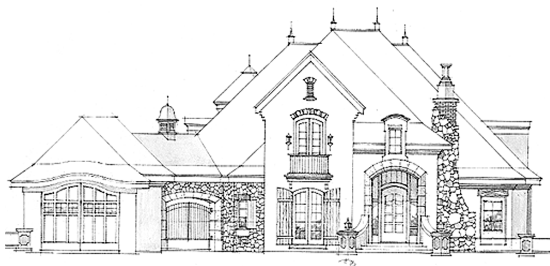

Recently completed are a **European Villa** (right) on Lake Down in Windermere, and a **French Country home** (left) on the Intracoastal in Stuart.

Construction is underway on a **Mediterranean Villa** (right) in Lake Nona/Orlando, and a **Mission Mediterranean** (left) in Isleworth/Windermere.

Construction is expected to start soon on a **Mission Mediterranean** (right) on the Intracoastal in Gulf Breeze, and an oceanfront **Victorian Cottage** (left) in New Smyrna Beach.

Documents are nearing completion for an **Irish Country Estate**

(right) in Isleworth/Windermere, and a **French Provençal** (left) in Winter Park.

Schematic Design is nearing completion for a **California Mission Colonial Villa** (below) on a private island across the Intracoastal from St. Simons Island, Georgia.

View these and other newly completed homes on our expanded website at [www.tompricearchitects.com](http://www.tompricearchitects.com).
